## Technical Skills

Marketing Tools	Google Inbound Marketing Certificate, Google Ads, Facebook Ads, G Suite,
Languages:	Python, JavaScript, C/C++ , Java, SQLite, CSS , Node.js
Dev. Tools	Github, VS code, Adobe After Effects, Adobe Photoshop, IntelliJ, Unreal engine 5
Trilingual	English, French, Farsi
Certificates	French Language certificate, Google inbound Marketing Certificate, Google Analytic Certificate

## Experience

### **IT01 Technical Analyst**

**Sep. 2024 - Present**

#### **Royal Canadian Mounted Police**

- Provided first-level support for over 200 applications to RCMP employees and external partners.
- First point of contact for technical problems and requests through the call center phone system & self-service ticketing system.
- Diagnosed and triaged technical issues timely and efficiently to resolve tickets or calls in a confidential manner.
- Assisted and communicated with fellow analysts to resolve complex technical issues.
- Troubleshooted Hardware/software issues, Reset passwords, and granted/removed application access in an array of systems.

### **Pharmacy Technician**

**Mar. 2021 - Present**

#### **Walmart Pharmacy**

- Processed Prescriptions, counted medications, inputted faxes, and processed insurance claims.
- Used the electronic records system (Kroll) for efficient patient record and prescription management.
- Managed Covaxon for COVID-19 vaccine record-keeping, ensuring data accuracy and inputting.
- Presented new ideas/initiatives and implemented them to successfully improve workflow.
- Conducted staff training on pharmacy software, emphasizing precision and adherence to health regulations.

### **Freelance Custom PC Builder**

**Dec. 2019 - Present**

- Tailored PC builds to meet client needs and budget constraints.
- Ensured part compatibility for optimal system performance, leveraging online resources and research.
- Strategically sourced components cost-effectively without compromising quality.
- Assembled PCs with attention to detail and functionality, delivering custom-built solutions.

## Freelance Developer - Projects:

### **Bionic Reading Application** - HTML, CSS

- Developed a program for individuals with reading difficulties by applying the "Bionic Reading" method.
- Gained experience in coding HTML to create the program, and research ways to improve day-to-day tasks such as reading.
- Created a program that I use daily to improve my reading speed and get tasks done faster.

### **Interactive Calendar Application** - JavaScript, HTML, CSS

- Built an interactive web-based calendar application where the user can put notes on each day and export the calendar into a jpg.
- Enhanced my knowledge of web development and dynamic user interfaces.
- Developed a calendar that I use every month to organize my schedule.

### **Design and Brand Development**

- Developed a brand identity for Alpha Mix Grooming by pitching the design, website, and marketing to a client.
- Gained experience in graphic design, logo creation, product label design, and marketing.
- Successfully created a brand, including a logo, product labels, and a website, and was able to fully sell out all our products.
